Thoughts from the President

We are very fortunate to have Yale as part of our background. This is true whether you attended Yale College or one of the graduate schools. For so many reasons, including our Yale histories, it is incumbent upon each of us to give back to the communities in which we live, work and play.

We are also fortunate to have the opportunity to partner with a brand new elementary school in Minneapolis, Webster Elementary. Located in Northeast Minneapolis, Webster will start as a K through Grade 2 school, adding one grade each year as they refurbish their building. We already have leaders interested in art, music, computer geography and climate, and gardening to join in the program, although we certainly need more help in these areas as well.

Since Webster has not yet opened, they don't know the composition of their student body. However, they anticipate having a broadly diverse set of students, many of whom will require financial assistance through the lunch program.

Thus, my fellow Yalies, we have a real opportunity to help young students who come from less advantaged backgrounds. Let's show what we can do.

Ron Goldser, '75
President, YAANW
